DETAILED ACTION

1. This Office Action is in response to the RCE filed on 10/14/04.
2. Claims 1-16 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The Examiner has carefully considered the independent claims 1 and 9. The "system" and "method" for "dynamic service support" as claimed was not taught or suggested by the prior art. Ragan teaches an Internet portal that presents a secure and personalized page for a user in response to a log-on by the user. However, Ragan does not teach limitations "installing" "portal-page service," "interface bundle," and "customer service." Furthermore, Ragan does not teach "generating, by the portal-page service installed at the gateway, user interface for the customer service installed at the gateway identified as a result of the searching based on the customer service installed at the gateway identified as a result of the searching," and "generating, by the portal-page service installed at the gateway, a portal-page for the customer service installed at the gateway identified as a result of the searching based on the user interface generated for the customer service installed at the gateway identified as a result of the searching and the portal-page service installed at the gateway." These limitations define patentably over prior art of record.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
